S I R:

In response to the final Office Action mailed on June 20, 2002, the following  
amendments and remarks are respectfully submitted:

Please amend the application as follows:

In the claims:

1. (Twice amended) A method for registering a mobile communication device to  
a service comprising:

receiving a device identifier for the mobile communication device via a  
communication network, wherein the device identifier is correlated with information  
concerning what services the mobile communication device has a technical  
capability to access;

receiving, via the network, a request for a service to be provided to the mobile  
communication device;
